

Critical Information Summary

Residential Internet and Telephone Bundled Services

Information About The Service

Service Description

These are fixed broadband internet and telephony services delivered using either fibre-to-the-premises or fibre-to-the-node (FTTx) network infrastructure. Pivit delivers these services to your communications cabinet; this is our network boundary point.

Availability

Pivit's broadband internet and telephony services are available within our FTTx network infrastructure areas along with some other areas. Unless your premises is already connected to Pivit's network infrastructure you will also need to apply for installation of a lead-in cable (from the street to your premises). Pivit can coordinate this installation and will provide a quotation if required. A service establishment charge applies to establish all Pivit broadband internet and telephony services.

Minimum Term

Pivit's internet and telephony bundled services are supplied on a month-to-month or 24 month contract term.

Bundling Arrangements

Once a broadband internet and telephony bundled service is in place you can change your plan to other bundled services or cancel the bundled service. Early termination charges apply as shown below (please see Information About Pricing section). Changing to a lower value plan whilst in contract incurs a \$30 downgrade fee.

To move to an internet-only service (that is, cancel the telephone element of the service) complete a disconnection form (online or via paper form). The contract term for the internet component of the service would continue.

To move to a telephone-only service (that is, cancel the internet element of the service) complete a disconnection form (online or via paper form). Early termination charges apply as shown below. Telephone-only services do not have a minimum contract term.

Equipment required

You need no additional equipment to operate Pivit's broadband internet service. The service is terminated as an Ethernet RJ45 connection. It is recommended you install a compatible router. You can purchase one from Pivit with your service request or source your own. If you need support please go to our FAQ's page at www.pivit.com.au or contact our customer service team. For telephone services, an Australian approved analogue telephone handset is required.

Information About Pricing

Monthly Line Rental Charges When Bundled with Internet Service

Number of lines	Monthly Line Rental Charge
First line	\$15.00
Second line and subsequent lines	\$20.00

Standard fees can be found in the Residential Price and Services Guide on the Pivit website at www.pivit.com.au.
All prices shown include Goods and Services Tax (GST).

Pivit Telephone and Internet Service Establishment Charges

A service establishment charge applies for Pivit to activate each telephone or internet service/line.

Service Establishment Charge		Charge
FT1	Pivit analogue telephone service. (If an on-site visit is required, an additional charge applies - see below)*	\$60.00 (per line)
FB24	Fi-Band™ Internet Access service. 24-Month contract. (If an on-site visit is required, an additional charge applies- see below)*	\$0.00 (per service)
FB1	Fi-Band™ Internet Access service. 1-Month (No lock in) contract. (If an on-site visit is required, an additional charge applies- see below)*	\$99.00 (per service)
PLEASE NOTE:		
* An on-site visit by a Pivit Technician is required if there has been no previous Pivit Internet access or telephone service in the premises (for example, new homes). An on-site visit fee may apply and will be advised before booking.		
* An on-site visit by a Pivit Technician is available if a customer requires assistance in connecting their computer/router to the Pivit infrastructure. An on-site visit fee may apply and will be advised before booking.		
OS1	On-site visit. A Pivit Technician is required at the premises to establish services. (An on-site visit is only charged once if both Internet access and telephone services are established on the same visit).	\$130.00 (per visit)
	PLEASE NOTE: Pivit's Technician will connect and test that a single customer PC can connect to the Internet and that email can be sent and received and that a single telephone can make and receive calls. Cabling within a customer's premise is the responsibility of the customer.	
PI1	Priority install additional charge. Reduce the standard connection time to 8 business hours or less for in-place connections (where a previous Pivit service has existed). In instances where a Pivit technician is required at the premises to establish services, priority install is considered to be 2 business days or less. Pivit will reallocate resources where possible – this service is subject to availability	\$100.00 (additional charge)
	Router - If you don't currently have a Non-ADSL router, you can purchase one (including delivery).	\$99.00
	First Connection Fee - If an internet and/or telephone connection has never been established at your premises, a once off \$300 connection fee applies	\$300.00
All prices shown INCLUDE GST		

Early Termination Charges

Pivit internet customers who choose 24 month contracts are liable for an early termination charge should the service be disconnected prior to the agreed contract expiring. This is charged at \$15.00 per month for the remaining contract period. For example, a customer who requests to terminate their service with 10 months remaining in their contract will incur an early termination fee of \$150.00.

Relocation Fees for Both Services (Internet and Telephony)

Pivit Services	Relocation Self Install	Relocation with Technician visit
Internet and Telephony services	\$100.00	\$200.00

Self install is only available where a previous Pivit Fi-Tel™ and Fi-Band™ service existed at the new premises. Self install also requires a good knowledge of PC networking and the ability to configure your email application.

* **Technician visit** For Fi-Band™ Pivit's Technician will configure and test that a single PC can connect to the Internet. For Fi-Tel™, the Technician will connect and test that a single telephone can make and receive calls.

Please note that cabling within a customer's premise is the responsibility of the customer.

Other Information

Usage Information

Usage information can be obtained by logging on to the Pivit customer portal <http://portal.pivit.com.au/>.
